Moscow City University is a metropolitan center for science, education and culture, taking place in the Top-3 of the major teachers' training universities in Russia. Launched as a university specialized in education science, today MCU is a cross-disciplinary hub for developing human resources with extensive expertise. In 2020, MCU will mark its 25th anniversary, celebrating a quarter-century of innovative teaching and learning practices.

MCU offers more than 300 Bachelor's and Master's degree programs in such study fields as Education Science, Foreign Languages, Psychology, Social Studies, Law, Economics, Management, Computer Science, Sports, Arts and Music, Design, and others.

More than 18,000 students and 800 academics enjoy excellence in teaching and research at MCU, supported by modern facilities and fully-equipped classes. Special attention is given to individuality and the development of talents and aptitudes of each student.

97% of MCU graduates find employment after graduation in the spheres varying from educational institutions and governmental bodies to art galleries, the media and theaters.

Since 2008, MCU has offered courses and degree programs for international students. International students are supervised by their coordinators and the International Relations Department that assists in obtaining a Russian study visa, provides consultations on educational programs and support on general issues regarding life in Moscow.

MCU has more than 130 cooperation agreements with top universities around the globe: within the European Union, the USA, the Asian-Pacific Region, Latin America and CIS countries. Every year more than 600 international students apply to study at MCU. MCU arranges internship programs for exchange students in Moscow secondary schools and multinational companies. MCU also offers summer schools and numerous courses of Russian as a foreign language.

FACTS & NUMBERS

300+ Degree programs

18,000 Russian students

600+ International students

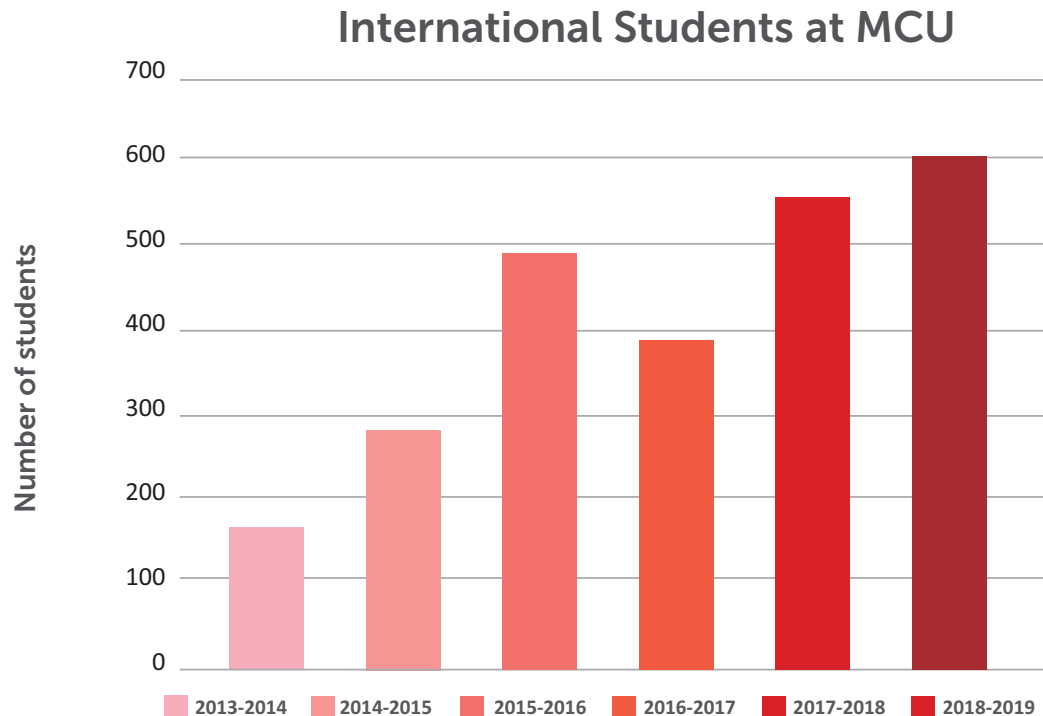

130+ Cooperation agreements

MCU comprises **14** institutes, **16** laboratories, **8** colleges, **2** hotels, a secondary comprehensive school, a pre-university center, and a branch in Samara.

The MCU campus stretches across Moscow, located in **44** buildings.

TOP-5 REASONS TO STUDY AT MCU

- MCU is ranked in the Top-3 best Russian universities in humanities and education science, offering more than 300 degree programs from sciences to arts.
- MCU enjoys more than 130 international agreements enabling students to study in partner universities around the world.
- MCU institutes provide internship opportunities in major commercial and educational institutions of Moscow.
- MCU has a widely distributed network of buildings offering universal access to its programs.
- MCU has two student hotels located within convenient distance from the campus.

INSTITUTE OF FOREIGN LANGUAGES

The Institute of Foreign Languages comprises 8 departments that are headed by leading Russian academics.

It offers educational programs in cross-cultural communication, Russian as a foreign language, linguistics and translation studies, teaching foreign languages and literature, Asian studies (Chinese and Japanese in particular). Curriculum implies studying two foreign languages chosen by the student. The Institute is proud to have, among its faculty, native speakers of Chinese, Japanese, Italian, German, French, English.

The Institute of Foreign languages features the opportunity to regard a foreign language as a tool to excel in a certain non-linguistic area. The brightest examples are the course in law given in French, Russian as a foreign language, creating and promoting Internet texts, etc. One of the Institute's key objectives is to boost international cooperation. Today it has a number of partnership agreements with leading universities in Europe and Asia, each year welcoming more than 250 students and 20 professors from overseas. The best IFL students and educators are offered a variety of exchange and internship opportunities.

- Inclusive Education at Primary School

- ✓ Innovative methods for the complex rehabilitation of children
- ✓ Laboratory of inclusive education

INSTITUTE OF SYSTEM PROJECTS

The Institute of System Projects is a scientific structural department of MCU. Currently it is made up of 9 laboratories leading research that drives the development of the modern educational system in Russia and abroad. The Institute is a collaborative center that combines undertaking advanced research alongside delivering Master's degree programs, which allows the implementation of innovative educational practices and findings on the spot. The Institute annually hosts prominent international symposiums on educational practices, such as *Education and City*, and coordinates student competitions for young professionals, such as *WorldSkills*.

Laboratories

- Activity-based education design
- Child development
- Competence practices in education
- Educational infrastructures
- Health promotion in education
- Humanistic approach in education
- Professional development in education
- Socio-cultural educational practices
- Development of Personal Potential

Projects

- Development of exemplary educational programs in general education
- Designing and updating the content of early childhood and school education
- Assessment and development of early childhood education quality
- Assessment of the school environment
- Professional certification of teachers

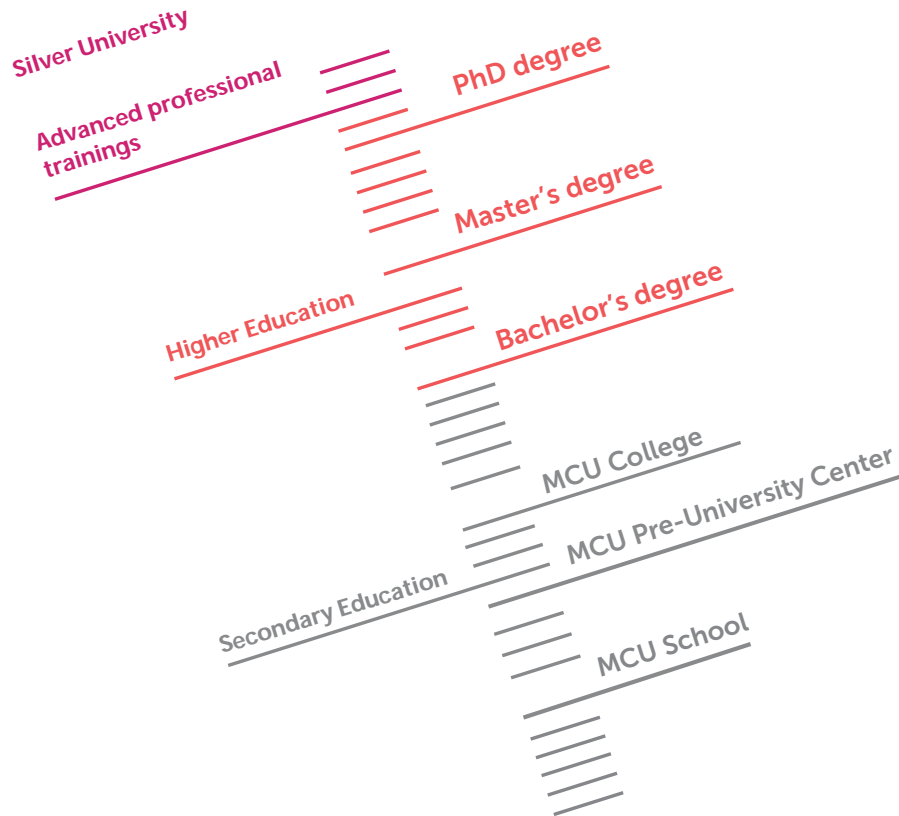

Master's degree

- Design and Assessment of Early Childhood Education — Theory by Lev Vygotsky
- Training of Activity-based Educational Practices
- Design of Municipal Educational Infrastructures
- Management of Quality Assessment Systems in General Education
- Assessment and Monitoring of Educational Outcomes in General Education
- Design and Assessment of Developmental Education

- ✓ International research projects
- ✓ Research based solutions in education

CONTINUOUS EDUCATION

The educational system implemented by MCU provides all stages of education, starting from high school to post graduate studies and advanced training programs.

MCU School is a structure deeply integrated into the university, where students are nurtured and taught by innovative methods in a comfortable learning environment using the most up-to-date digital technologies.

MCU Pre-University Centre helps students prepare for college admission exams and make informed choices regarding their field of studies and future careers.

INSTITUTE OF LIFELONG LEARNING

The Institute of Lifelong Learning offers training programs of advanced education for young, adult and elderly students. Our programs are developed in cooperation with employers, practising educators, researchers and experts in different fields, which ensures the practice-oriented and innovative approach to the learning process, as well as personal development of students. The Institute takes part in the All-Russia and international projects on training teachers in the professional competences demanded in 21st century.

One of the Institute's rapidly evolving initiatives is **Silver University** that offers a creative educational space for elderly citizens of Moscow. Its training programs focus upon the skills required for a fully functional life in modern society, featuring digital communication, foreign languages, the history of Moscow, health and safety, legal and financial literacy, etc.

Another key direction of the Institute's activities is implementation of career-enhancing programs for students and graduates, such as International Baccalaureate, Management and Marketing, Psychology and many others.

RESEARCH AT MCU

Post graduate education

MCU has established a continuous educational system which allows students to proceed with their research in 14 different fields, choosing from 43 specializations. Post graduate programs at MCU provide students with the necessary research skills required to defend their thesis and gain a PhD degree. MCU has 10 scientific boards for PhD and doctoral theses defense.

Research

There are 16 research laboratories at MCU that are mostly focused on investigating social and educational issues. The research projects and activities are conducted at the labs of the Institute of System Projects, as well as specialized labs of the other institutes. The research findings are published in the peer-reviewed scientific journal *MCU Vestnik* and implemented in the MCU's educational practices.

The annual International Symposium *Education and City* is one of the key scientific events arranged by MCU that connects educational experts from around the globe. The main objective of the Symposium is integrating the best international and Russian practices and promoting cooperation between cities and universities.

LIBRARY

The MCU Fundamental Library is a vast resource that comprises more than 1 million volumes and a broad data network of electronic study materials. Currently 17,000 users benefit from its services.

The Library has offices in all MCU institutes where students, researchers and MCU guests can study comfortably in the reading halls complete with access to the Internet.

LABORATORIES

- Project management
- Psychological support of the educational process
- Educational technologies in professional education
- Inclusive education
- Education law
- Theory and methods of teaching IB programs
- Monitoring of research and projects achievements

INTERNATIONAL RELATIONS

MCU actively develops partnership with world leading universities, annually expands the number of student exchange programs and invites world-renowned professors to enrich its academic environment.

The mission of the International Relations Department is to enhance MCU integration into the global education community and provide academic freedom for its students and faculty.

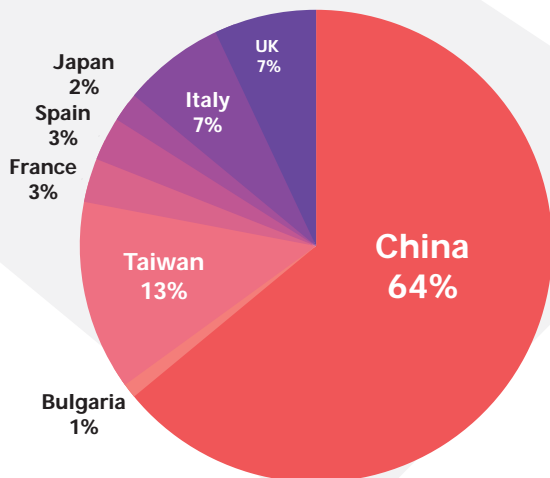

Activities

- ✓ Student and faculty exchange programs (Erasmus+)
- ✓ Summer schools
- ✓ International Conferences
- ✓ Open lectures
- ✓ Russian language training

Objectives

- Coordinating and promoting cross-border cooperation
- Attracting international students
- Managing academic mobility programs
- Arranging international events and visits of distinguished academics
- Providing visa and registration support

EXCHANGE STUDENTS

130+ cooperation agreements
with global partners
600+ international students

INTERNATIONAL BACCALAUREATE

The **International Baccalaureate®** (IB) is designed for professional development of international educators who work at authorized IB schools worldwide, where emphasis is placed upon students' personal development.

The IB Provider Centre of Moscow City University is the only office in European Russia that has been accredited by the IB Global Centre in Hague.

- ✓ Promoting IB programs in Moscow schools
- ✓ Master's degree program 'IB Theory and Technologies'
- ✓ Professional training and workshops
- ✓ Awarding international certificates

CENTER FOR RUSSIAN-CHINESE COOPERATION

The Center for Russian-Chinese Cooperation offers Russian language and culture courses for students from Mainland China, Taiwan, Hong Kong and Singapore, as well as from other countries whose native language is Chinese or Mandarin. These courses include Russian grammar, speaking practice and learning professional vocabulary that is required for students' future degrees.

After completing the courses, students will have acquired language skills sufficient to continue education for a Bachelor's degree at one of the MCU Institutes.

- ✓ Learning Russian from beginner or intermediate level
- ✓ Small study groups
- ✓ Discovering Russian culture
- ✓ Opportunities to proceed to a Bachelor's degree in Russian

SPORTS SCHOOLS

MCU incorporates a School of Water Sports and a School of Martial Arts, open to all sports enthusiasts.

School of Martial Arts

- ✓ Karate
- ✓ Kobudo
- ✓ Wushu
- ✓ Taekwondo
- ✓ Boxing
- ✓ Kickboxing
- ✓ Sambo
- ✓ Aikido
- ✓ Jiu-jitsu
- ✓ Judo
- ✓ MMA fighting
- ✓ Hand-to-hand fighting

School of Water Sports

- ✓ All age groups
- ✓ Student swimming clubs
- ✓ Swimming competitions
- ✓ Small pool
Capacity: 15 children
- ✓ Large Pool
Capacity: 45 adults,
3 lanes

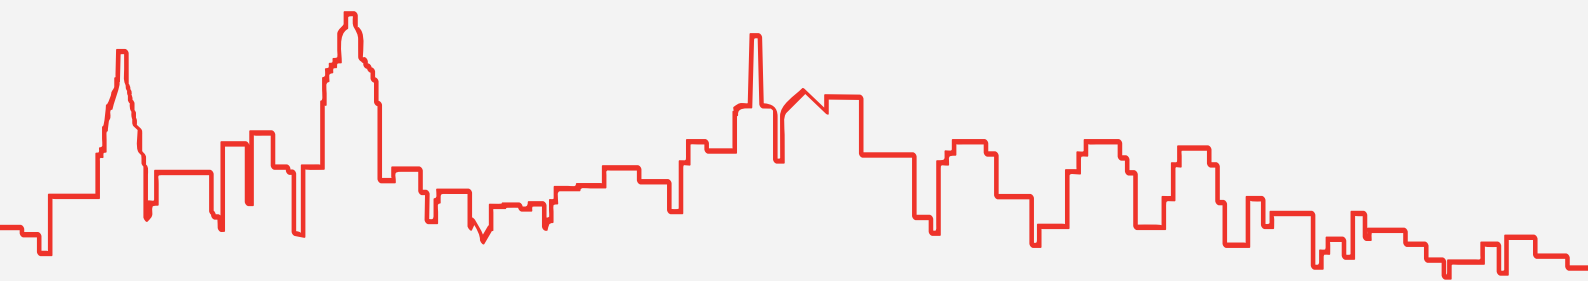

MCU HOTEL

MCU has two hotel buildings with comfortable and budget-friendly accommodation available for prospective and current students, researchers and MCU guests.

One of the buildings is located in a fine green area close to the Izmailovsky Park that offers cultural and sports activities throughout the year. It can accommodate 580 residents in rooms for two, three or four people.

Another building lies in the north-east of Moscow within 30 minutes of the MCU campus. It has very convenient transport connection and well-developed infrastructure. The locals enjoy the vast green Elk Island Park and the Botanical Garden nearby.

- ✓ Recreation room and kitchenette on every floor
- ✓ Free WiFi
- ✓ Gym
- ✓ ATM terminals
